

MENTAL HEALTH SPEAKERS BUREAU

1. TWO SLIDES
- Farm Home
- Farm Scene

We live in an area of Iowa which is rich and prosperous. It is all made possible by Industrious people coupled with an abundance of the resources necessary for good living. This prosperity and good life find their primary base in rich farm land.

2. TWO SLIDES
- Abandoned farm
- Abandoned school house
or
windmill

Even though the number of farm people is declining, we still look to the soil for the undergirding of our economic and cultural life.

Fortunately, as farms have increased in size and the number of farms has declined, farm related industries and service have expanded. As a result, our community now has a healthy balance of farming, industry, and services.

3. TWO SLIDES
- people
- people

But our greatest asset is people - down to earth, hardworking people. But where there are people there are human needs to be met.... often through cooperative effort. Needs of people are many and varied.

4. TWO SLIDES
- Houses
- Houses
or
trailer house

They need shelter. Throughout our county we find fine homes.

5. ONE SLIDE
- Old Home

We have old homes, generally well kept, with owners and occupants who take pride in them.

6. ONE SLIDE
- New Home

And new homes, too.
